**RESPONSE**

Dear Sir:

This response is being filed in reply to the official action mailed March 21, 2005. In that action, the Examiner required an election of species, under 35 U.S.C. § 121, between the following alleged patentably distinct species of the invention:

- I. Species I - Fig. 1; or
- II. Species II - Fig. 2.

Reconsideration of this requirement for election of species is respectfully requested in view of the following remarks.

The Applicant believes that the present invention contains two (2) embodiments of a single inventive concept. Both species of the invention contain the features presently recited in claims 1-11 which are all believed to be generic to both species of the invention. Moreover, the Applicant believes that claims 1-11 are allowable and consequently both species of the invention should be prosecuted in one and the same application for efficiency reasons.

It is respectfully submitted that the two (2) species of the invention represent similar ways of obtaining the same desired results disclosed within this application. Notwithstanding this belief and in order to fulfill the Examiner's request, the Applicant provisionally elects, with traverse, to prosecute the species of the claimed invention shown in Figure 2 of the drawings. The Applicant also provisionally elects, with traverse, claims 1-11 which are readable on the elected species to be prosecuted on the merits.

The Applicant does not waive any rights with respect to the non-elected species and does not intend to abandon that subject matter. If the Examiner makes the election requirement final, the Applicant respectfully requests that the non-elected species be withdrawn from further consideration but remain in this application subject to reinstatement, in the event that a generic claim is allowed, or for possible filing of a divisional application(s).

In view of the foregoing, it is respectfully submitted that the outstanding election of species requirement should be withdrawn and examination of all claims pending in this application, on the merits, is respectfully requested at the present time.

Respectfully submitted,
